Both experience and theory establish the fact, that Ammonia and Phosphate of Lime are essential ingredients for a general fertilizer, and consequently, for general purposes, a proper mixture of the two is recommended. Whilst the Peruvian and other ammoniated Guanos are mere stimulants or quickeners of the soil, the Sombrero Guano is a permanent fertilizer, but of slower action and less perceptible effect the first year, unless aided by some stimulant. Hence the great importance of combining the two in proper proportions, which, if done, makes the best, most convenient and economical fertilizer known. Assuming the cost of Peruvian Guano at \$60, and Sombrero at \$30 per ton, and with one-quarter of the former and three-quarters of the latter, (which proportions are recommended by experienced farmers,) it gives, at a cost of \$37,50 per ton, a fertilizer far more valuable and permanent than the Peruvian alone. Whilst Ammonia (in the Peruvian) is liable to evaporate or rise, Phosphate of Lime (in the Sombrero) is heavy, and liable to sink below the reach of the roots of plants; therefore it should be either deposited in the hill or drill, with the crop, or used as a top dressing, in the proportion of 300 or 400 lbs. to the acre, according to the

WORTHY OF ANY CONFIDENCE FOR RESTORING THE BALD AND GRAY Man , since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway.—

ONLY DISCOVERY

Read the following :-BATH, Maine, April 18th, 1859. Frof. O. J. Wood & Co .: Gents :- The letter I wrote you in 1-56 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thrifty, and better colored; the same is true of my whis-Wednesday. 330..... 1 80...... 1 44...... 90 66 a 67. The advices from other markets are connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of erate to any extent—the market closing quiet but steady this morning at 32 cents for straight, and 33 1-2 conts for N. Y. bbis. The sales for the week comprise 1,150 bbis., as follows:

| Continued to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt been basely imitated and been used, not only without any good effect, but to absolute injury. I have have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative sold by many, I fear, without authority from you. A pure articie will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty, as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me my unshaken opinion of its valuable results. I remain, dear sir, yours,

AABON'S RUN, Ky., Nov. 30, 1858. Prof. O. J. Wood: Dear Sir :- I would certainly be doing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restorative extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Restorative. Now. candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth co hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessity

for it. Respectfully yours, Rev. S. ALLEN BROCK. P. S .- This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited ;-but if you think it worthy a place among the rest, insert if you

wish, if not destroy and say nothing. Yours, &c., The Restorative is put up in bottles of three sizes, viz. large, medium, and small; the small holds } a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for \$3 a bottle.
